## Summer Newsletter 2007

### Advantage of such mixed summer weather?

The weather has been very mixed this summer, though much better recently. The grass is looking green and lush - remember the parched look of last year. Amidst the rain, there have been some beautiful days. The advantage of owning a caravan is that you can get out to your hideaway and enjoy good days when they do occur. We are glad we are a good 30m above the river, though.

### Fencing on Catton Boundary

We are pleased to have completed this final stretch of gate and fencing, making the park more secure and keeping out those lambs who ate plants last year.

### Please remember.....

To keep your dog on a lead on the park and to clean up after your dog.

### Station House Flat – that skip has gone!

Full refurbishment of Station House Flat has finished and it has been graded at 4-star. It is fully accessible to grade M1, though we are waiting for the accessibility assessment. Brochures for the flat are available in the laundry. There is a 10% discount for friends of caravan owners.

The living room is cosy with a wood burning stove.

### Hull Caravan Show

The large Hull caravan show is on Saturday 8th and Sunday 9th September. Over 160 caravans are there to view so it is a somewhat mind-blowing experience. We can get free tickets if you are interested in going to the show, but we need to order them in advance so do speak to us in good time if you are interested..

### Activities in Allendale

This year Allendale has its own walks and activities brochure – there are some copies in the laundry and around Allendale. These extend to October so you won't miss out if you are not here for a few weeks.

The new Allendale free map has the dates of the local shows. Shows start with the Agricultural Show on 18 August, followed the next week by the Allendale flower show, where entries are welcome from holidaymakers. There are lots of adult and child categories for those craft creations. Last year Alana on pitch 13 got her name in the paper and won some money for her LEGO robot. Some show brochures are in the laundry and around Allendale. Get that Sellotape out!

Pebbles Art Café are having a flower themed event all of August so look out for that.

The first phase of craft units at the smelting mill 300yds away, is due to be finished late autumn. They have done a huge amount of work working around their rare bats.

### Welcome and Farewell

Welcome to the Brennan family on pitch 34

Regards, Mike and Verona
